The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

I have fixed your allotment of silver dollar coinage for the month of June at $900,000 in order that you may have an opportunity to execute as large a coinage of dimes as possible, and also to give you a chance to coin some five cent pieces and some bronze cents. I notice your stock of bronze cents is almost entirely exhausted.

In order to avoid any embarrassment I think you had better run off a lot of them early in the month in addition to the dimes, leaving your dollar coinage for the latter part of the month.

I would suggest that, in view of the fact that you can utilize your present force, you run your coinage as far up in the month of June as possible so that when your force is reduced in July you will not be embarrassed in the execution of the necessary coinage.

Very respectfully,

E. O. Leech

Director.
